

To: Residents of Buttermere Way, Littlehampton:

This is me Debs Flynn, I live at No. 19 and have lived here for about 7½ years. Although my day job is working for the NHS (currently working from home), I am an avid photographer and am studying for a BA (Hons) degree in Photography with the OCA. As you can see, I'm a mature student!

The course I am currently studying is called 'Identity and Place' and my first assignment is to take portraits of people I don't know. Obviously, at the moment, with social distancing, that's quite difficult. Therefore, I have an idea to explore the notion of 'who is living in our street, during Lockdown'. I'm afraid to say, I actually don't know many of you. In the future this time will be part of our social history and I thought it would be good to make a record of those living in Buttermere Way now.

You may have seen me taking some photos in the street as some residents have taken part in the project already. If you would be interested in helping me, I am looking for a person (*over the age of 16*) from each household to have their photo taken outside their house (social distancing rules applied) and tell me a little bit about themselves. I'd also be happy to take a doorstep family photo for you at the same time if that's something you'd like.

Below are a few photos of Ralph (*my husband*) to give you an idea of what I'm looking for.

I'd love to hear from anyone in the street that would be interested, you can contact me via FB, either personally or through the Buttermere Way Group page at <https://www.facebook.com/groups/184326601969768/>, give me a call or text on 07808 017052 or knock on the door and have a chat.

The final assignment will be published on my Uni blog, which is largely only read by my tutor and other students, but of course, I will be happy to send the link to anyone participating if they would like it.

Many thanks, Debra
